

# IMPORTANT NEWS AFFECTING BUILDING HEIGHT

The County Council is currently considering the lowering of building height in the R-60 and R-90 zones from 35 feet to 32 feet and the way in which building height is measured. These changes may affect your property and the permit you have applied for. You may be required to modify or redesign your plans based upon the final version of the zoning text amendment.

The Department of Permitting Services will contact you in the event you need to make changes to your plans. We regret any inconvenience this may cause you.
